

# MEAT is DELICIOUS

## MEAT is FUN

## MEAT is MEATY

**Meat** is Good. **Meat** tastes good, smells good, and plumps when you cook it. **Meat** is one of those things that makes you glad you're at the top of the food chain so you can enjoy it. **Meat** makes friends. **Meat** is for **Lovers**.

**PWEETA** (People Who Enjoy Eating Tasty Animals) wants to end the suppression of mankind's phobias with certain meats and meat by-products.

### MEAT ISN'T MURDER - MURDER IS MURDER

How many times have we heard a man referred to as "beefy" or a woman as a "hot bucket of chicken"? Or disgusting euphemisms for the sexual act like, "I'd love to pork her", "I am bopping the baloney" or "Who's grilling the liverwort?" This is blatant propaganda by **Vegetarians** to discredit the joy of **Flesh!**

### HUMANS ARE ANIMALS, AND THEY LIKE TO EAT MEAT...

**Vegetarians are denying themselves a basic human comfort-** eating the charred flesh of others. Who can help but see a cow in a field and think, "flank steak!" Or a fish in a pond and not think "Filet O' Fish" or "whaler"? It is only natural.

### YOU ARE NOT ALONE.

Vegans say that only eating veggies is more "humane". But is it so humane to torture poor Asparagus? Do you feel, "touchy feely" when you bite into a cabbage? Those are organisms too and must die for you to live! Why limit yourself to the death of a crummy celery stalk when you can **eat a giraffe**.

### SO WHO IS REALLY THE KILLER?

At **PWEETA** we believe you should eat whatever you want- when you want it. Why is it OK for the French to eat Horse, but it is **ILLEGAL** in **California**? Or how the Chinese who go ga-ga for Cat? Or how about the Koreans and Dogs? You may think of them as pets, but to us, they are **Livestock**.

Mmmmmmmmm!

### THE MOST DANGEROUS MEAT

In school they teach us that Swift's **Modest Proposal** is an ironic joke- but it's not. Why do you think there's no good English food? The English REALLY eat Irish babies- and they taste good. Charlton Heston prophesied in 1973 that "Soilent Green" is people. But so is **vegimite**. Pacific Islanders also eat their dead. Cannibalism isn't a dirty word in these cultures.

**It shouldn't be in ours!**

### MEATY FACTS

According to *Vegetarian Times*, 99% of all Americans eat meat and 94 % eat red meat. Americans have been increasing their meat consumption by more than 1.5 pounds a year for the past decade.

An average American works only 9 minutes and 15 seconds to pay for a hamburger. He works 3 minutes for a cocktail weiner.

Steaks have been put over the eye for centuries to heal "black eyes" and gingivitis.

Maggots were thought to "tenderize" meat until 1845 when it was discovered that they were poisonous.

The meat industry employees more workers than aerospace, oil and gas, consumer electronics, internet start-ups, and retired Catskills comedians combined.

The meat industry is so efficient in its use of spare meaty bits, that it gets more 20% more meat per cow than in the 1960s. The industry uses this surplus to maintain a 63 ft. Cow Golem that stands ready in a packing plant to destroy Chicago if need be.
